The doctor advises also to have some open-air activity.

Could you please inform what kind of sport equipment you have? We are interested in possibility to play basketball and volleyball. My wife is 1,90m tall, she is a former basketball player and would be glad to experience it again. Browsing your hotel's webpage, I didn't see any picture on the sport facilities even if there was mentioned that you have them.

Can you please send the relevant pictures to my email address?

There is also good to have the rental for boats. I have noticed there is a beautiful island some 10km from the mainland with the wild untouched nature.

We would with a pleasure go there and make a picnic there probably on Saturday morning. I am just afraid of the snakes. Are there any? I would appreciate your information about it and possible equipment we should have when go there, such as gummy boats, gummy coats etc. We have made several vaccinations to prevent the poisoning of snake and spider bites but don't really know are they enough.

As we are coming by car we would appreciate if you send the detailed instruction on how to reach your hotel. I am an old-fashioned man and don't use any navigators by rely on my head and memory. I have been once in your area and hope still to remember the way but the last part of the road which is leading to the hotel, I might not remember well so will appreciate your assistance in this case.
